Thankyou Ruta for helping me in qualifying Imhans entrance in first attempt, Forever grateful for the assistance provided by Rufa for interview also. It is always said that doing previous year questions is the best way to crack any competitive exams, but for me doing PYQ was a herculean task and confidence killer, It was Rufa who provided the detailed discussion and analysis of previous year questions and it helped a lot to crack the questions asked in Imhans entrance exam 2022
